103 other prizes from \$1,000 to \$10.00

ANOTHER Eveready contest! Another chance to win a big cash prize! Another chance for everyone to win, men, women, boys and girls—for everybody with imagination.

On June 1, Duple dealers throughout the United States and Canada will display in their windows the new Duple Contest Picture. It has no title. The story it tells is a great big winning story—human story. A thousand different people will see a thousand different stories in the picture. The story the picture tells you may be the most interesting—the prize winner—the story that you must win with \$1,000.00 to you.

If your answer doesn't win first, it may win the second prize—\$1,000.00—or one of the 102 other prizes, from less than \$10.00.

Go to the store of a Duple dealer. Study the picture in the window and write, on a contest blank which the dealer will give you, what you think the letter says. Use 12 words or less. For the best answer that coincides to the contest rules, the winner will receive \$3,000.00 in cash. Answers will be judged by the editors of LIFE. If two or more contestants submit the identical answer selected by the judges for any prize, the full amount of that prize will be paid to each.

Anyone may enter. There is no cost or obligation of any kind. Submit as many answers as you wish. But do not delay. Get an early look at the picture. Then send in your answers. Contest closes midnight August 1st.

TO DEALERS: There is still an opportunity to secure display and contest material for the most interesting contest. Write to the following address:

DOMINION TIRES

Royal Cord

Construction

TIRES of thousands of slender sections in many slanted layers, each cord and each layer laid parallel one to another, and each section and its plys reinforced with rubber.

so they cannot pull-apart—the cord and layer being so interlaced through to the innermost core (and of course the outermost) as to make the tire a unit of the Dominion Royal Cord Tire. The key principle in the slanted cord and the many layers or plies, thus the enormous strength to the tire and the heaviest side walls make excellent resistance from blow-outs, punctures and the abuse

Why "Royal Cord"

REASON—"Royal Cord" extra provides Lower Cost Construction, more miles per dollar than the same tire any put on North West. This saving also goes for the difference in cost, while the life of an ordinary tire is short.

REASON—"Royal Cord" offers more mileage than is possible from fabric tires. The cords of the "Royal Cord" are laid in the tread, across the road shocks and the cords in carrying these road shocks, reduce the shock of a car on the car, giving longer life to the tires and it is possible to drive more.

REASON—"Royal Cord" are 100% and are designed to be equally durable for 10,000 miles, and this construction reduces the slipping wheels (improving the car's life).

REASON—"Royal Cord" contains Interior Protection. There's no chance for abrasion on them.

In "Royal Cord" each individual cord is coated with rubber, which prevents the parallel cords from rubbing each other.

And a layer of live, absorbable rubber supports each of the innermost layers of cords, preventing any friction there. The internal friction means longer life to the tire.

REASON—"Lower the Pressure is possible, and this means more comfort and longer riding."

Dominion Tires, Inner Tubes and Accessories are distributed through Dominion Rubber System Dealers and sold by the Best Dealers throughout Canada.

THE CALM AT OTTAWA

By J. M. MUNRO

ILLUSTRATED BY LOU KUCK

To be sure there had been no unusual quiet on the political surface, but it is almost certain that this is so. It is only possible to comprehend the general calm.

For instance, during the last week, a storm was blowing across the water of the Ottawa River. On the 10th of September, the storm was blowing across the water of the Ottawa River. On the 10th of September, the storm was blowing across the water of the Ottawa River.

Would Germany Try the Kaiser?

Speakers at German Public Forum Answer in the Affirmative—Say Kaiser Must Not Defend Guilty Individuals

What does the German public think of the proposal to try the Kaiser? The answer, according to speakers at a public forum in Berlin, is that the Kaiser should not be tried. The speakers, who were all members of the Reichstag, said that the Kaiser should not be tried because he is the head of the state and should not be held responsible for the actions of his subjects.

They also said that the Kaiser should not be tried because he is the head of the state and should not be held responsible for the actions of his subjects. "Say it with Flowers"

The "Silent Partner" of Big Business

"To me, Dear, those flowers are a very real incentive to effort. Like baby's smile—like the touch of your hand—they always are in every crisis, and encourage me to higher aims."

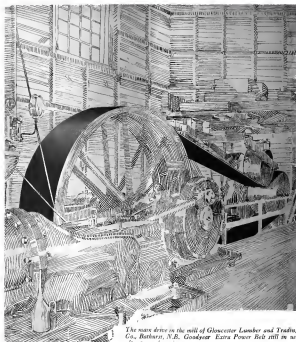

He was a big man. Big enough to know that success is largely a matter of surroundings. And fresh flowers are so much a part of his desk equipment as his favorite pen or his telephone.

To-day in the high places of business—in the cheerful, well-kept home—on the attractive, perfectly appointed table—and between friends, whose words would tell—Flowers breathe forth their fragrant messages of sentiment, inspiration and cheer.

Your local florist, within a few hours, can deliver fresh flowers in any city or town in Canada and the United States through the Florists' Telegraph Delivery Service.

Look for the fleur-de-lis displaying the "Say it with Flowers" sign. He is in position to give you unusual service in your purchase of flowers.

Master Belts of Industry

Goodyear has solved the problem of belting the great main drives of industry—the backbone of production.

Experience, in a thousand Canadian plants, says Goodyear Extra Power Belts.

Because these belts are *strong*—with the strength of properly selected fabric, every thread perfect.

Yet *flexible*, hugging pulleys, taking advantage of every inch of pulley surface. Flexible because in Goodyear Extra Power Belting high-grade rubber is forced through and through the fabric in generous quantities. Every strand is cushioned in it. No stitching to stiffen or weaken the belt. No separation of plies.

Its *friction* surface grips, even through dampness or dust. No slipping with Extra Power. No need for extra tight belts, pulling pulleys out of line. No need for belt dressing. No lost power.

The testimony for Goodyear Extra Power on main drives is very complete. For instance:—

The Norfolk Milling Company, of Simcoe, writing about their main drive belt, purchased a year ago, say:—

"Has been in continuous operation for one year, and has not stretched one groove or the slightest bit of trouble."

There are many others—some selected at random are:—

C. C. M. Prices Only Half Those of Twenty-Five Years Ago

Twenty-five years ago \$100 to \$150 was paid willingly for a bicycle. People today rarely consider the specifications and equipment before buying. They look only to their bicycles. They keep them clean, polished and bright. They care for them. Country riding was dropped. People became careless about their bicycles. Age made it a bicycle was good enough. Price—cheapness—was the main consideration. The bicycle of Quality Has Come Back. To-day the bicycle—the bicycle of quality—has come back.
